

VACUUM SOLUTION FOR *POTTERY PRODUCTION*

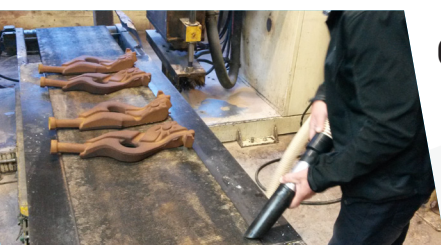

Remove dust in the areas where it's present the most, such as the paint preparation room and the room for the varnish

- ✔ Disposal of suctioned dust with a continuous bag system which prevents contact between the dust and the worker.

Protect yourself and your workers from silica exposure by removing dust generated by your work directly at the source.

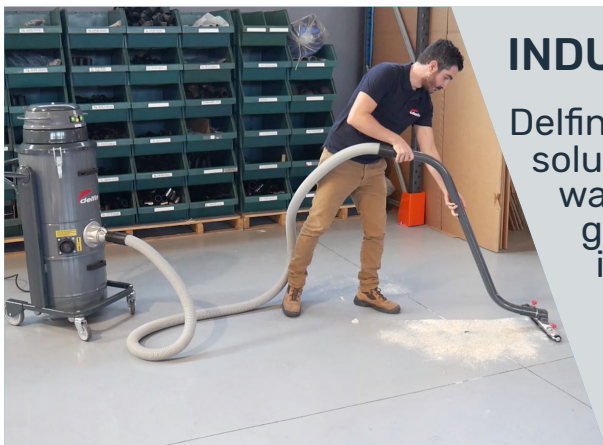

- ✔ Our machines are equipped with **HEPA** filters with filtration up to 0.18 microns and 99.995% efficiency

Clean your production lines from dust and debris with mobile or fixed vacuum solutions

- ✔ Choose Delfin vacuum cleaners that remove fine, toxic and carcinogenic dusts and purify the exhaust air.

DELFIN VACUUM SOLUTIONS

INDUSTRIAL VACUUM CLEANERS

Delfin's industrial vacuum cleaners are the best solution for removing dust and/or processing waste from any type of working environment, guaranteeing maximum efficiency and safety in any production or working area.
