

MTL 301 1/2D - ATEX EXPLOSION PROOF

ADDITIVE MANUFACTURING

- ✓ Compact and mobile
- ✓ Easy filter replacement
- ✓ Earth grounding
- ✓ Easy to clean and to maintain
- ✓ Accessory kit included
- ✓ Maintenance-free suction unit, 20,000 running hours guaranteed
- ✓ Vacuum powerhead Ex tb Dust Tight IP64 certified
- ✓ ATEX accessories and non-metallic parts tested
- ✓ Additional HEPA filter (99,995% on 0,18 micron) included

SUCTION UNIT

Dimensions	cm	44x42x84h
Weight	kg	26

SUCTION UNIT

The motor head is equipped with a Brushless motor: the lack of carbons allows the use of the machine even in explosive hazardous areas. The motor is protected by a series of filters and it is turned on by an independent switch placed on a soundproofed and robust metal motor head.

The motor head includes a vacuum gauge and tension power lights as standard.

FILTER UNIT

The large surface star antistatic filter, located inside the filter chamber, is made of polyester and provides high resistance against clogging and passage of fine dust.

COLLECTION UNIT

The vacuumed material is placed inside an AISI304 stainless steel drop-down bin mounted on wheels, which makes it possible to dispose easily and safely of the vacuumed material.
