

802 WD AIR 14V - AIR POWERED

FOOD INDUSTRY

CHEMICAL-PHARMACEUTICAL

- ✓ Complete steel construction
- ✓ Vacuum gauge to detect filter clogging
- ✓ Compact and mobile
- ✓ Easy filter replacement

- ✓ PPL filter for chips separation
- ✓ Floating device to stop the suction when container is full
- ✓ Discharge hose for liquids
- ✓ Powerful suction thanks to a multi-nozzle venturi unit

Weight	kg	33

SUCTION UNIT

The suction is provided by two venturi compressed-air-driven suction units, protected inside a strong steel chassis, which contains also sound absorbing material to minimize noise during service. The suction is developed by a venturi-type vented suction unit, protected inside a solid steel head, containing sound absorbing material that minimizes noise during service.

The head includes a pressure and a vacuum gauge, in order to detect the clogging of the filter

FILTER UNIT

A floating device stops the suction whenever the liquid in the container reaches the maximum level and prevents overflowing.

The dust filter is made of a double bag (polyester + nylon) and has a self cleaning system working on the pressure difference principle.

COLLECTION UNIT

The vacuum is assembled onto a sturdy steel chassis, and provided with industrial quality wheels, that make it suitable for mobile service even when used on rough surfaces.

OPTIONALS

- ✓ STAINLESS STEEL COLLECTION TANK
- ✓ TOTAL STAINLESS STEEL CONSTRUCTION
- EARTH GROUNDING
